SHK's Assessment of recommendation response from the Swedish Transport Agency

On 8 February 2022, the Swedish Accident Investigation Authority (SHK) published a final report into a very serious marine casualty in Torshammen, Gothenburg (RS 2022:01).

Two safety recommendations were issued to the Swedish Transport Agency in this report.

The Swedish Transport Agency has submitted a response and account of the action the agency has taken and intends to take. The action is deemed consistent with the recommendations issued in the report. Consequently, SHK makes the assessment that the response from the Swedish Transport Agency is satisfactory. (Concluded – satisfactory response)

Best regards,

Kristina Börjevik Kovaniemi
Chair Accident Investigations
