Swedish Accident Investigation Authority's report RL 2019:04

On 19 February 2019, the Swedish Accident Investigation Authority (SHK) published its final report RL 2019:04 regarding an accident at Berga, Vikingstad, in Östergötland County on 5 June 2018 involving the aircraft SE-GCM of model PIPER PA-18-150/180, flown by a private operator.

The report issued a recommendation to the Swedish Transport Agency. The Swedish Transport Agency has submitted a response to that recommendation.

The Swedish Transport Agency's implemented and planned measures correspond well to the recommendation issued in the report. SHK therefore makes the assessment that the recommendation can be considered implemented, and the response received from the Swedish Transport Agency is considered satisfactory.

Kind regards

Helene Arango Magnusson
Chair Accident Investigations
