

Ministry of Enterprise and Innovation

SHK's assessment of the reply to the safety recommendation from the Ministry of Enterprise and Innovation

The 26 October 2016 the Swedish Accident Investigation Authority (Statens haverikommission – SHK) published a final report (RS 2016:08) concerning a very serious marine casualty concerning the tug boat ÖRING and a barge. In the report SHK issued a safety recommendation to the Ministry of Enterprise and Innovation.

The Ministry of Enterprise and Innovation has replied to the safety recommendation and described which measures it will take.

SHK considers that the safety recommendation has been taken care of. (Closed – adequate response)

Jonas Bäckstrand
Chair of Investigation
