This document is a translation of the original assessment in Swedish by SHK of the response to the recommendation. In case of discrepancies between this translation and the Swedish original text, the Swedish text shall prevail in the interpretation of the assessment.

SHK's assessment of the recommendation response from the Swedish Transport Administration

On 18 August 2020, the Swedish Accident Investigation Authority (SHK) published a final report into an incident involving a near collision between train 8923 and train 18922 at Karlstad C (RJ 2020:03).

Two safety recommendations were issued to the Swedish Transport Administration in this report.

The Transport Administration has submitted a response and account of the action that the authority has taken and intends to take. The actions may be deemed consistent with the recommendations issued in the report. Consequently, SHK makes the assessment that the responses from the Transport Administration are satisfactory. (Concluded – satisfactory response)

Best regards,

Kristina Börjevik Kovaniemi
Chair Accident Investigations
