**Final Report RO 2015:01 Fire at Textes HVB-hem in Norrtälje**

The National Board of Health and Welfare has taken note of the report RO 2015:1. The National Board of Health and Welfare is recommended to investigate and consider the need for clarification through regulations or general advice, in order to ensure that authorisation is not granted and that facilities do not commence operations before the fire safety protection has been deemed adequate for the particular target group concerned, and to clarify the scope of supervision under the Social Services Act (RO 2015:01 R2).

The National Board of Health and Welfare will prepare the matter in the internal process for issues related to the form of facilities in question. No decisions have yet been made regarding potential measures to be taken. The Board has otherwise no views on the proposals or material.

Yours sincerely
