Swedish Transport Administration

SHK's assessment of the Swedish Transport Administration's response to recommendation

On 3 January 2019, the Swedish Accident Investigation Authority (SHK) published its final report (RJ 2019:01) regarding a derailment in Bastuträsk. In the report, SHK issued a joint safety recommendation to the Swedish Transport Agency and Infranord.

Both the Swedish Transport Agency and Infranord have responded to the recommendation and accounted for the measures they have taken and intend to take.

SHK makes the assessment that the response to the safety recommendation is satisfactory and the recommendation has been implemented. (Closed – satisfactory response)
