Assessment of recommendation response from the Swedish Armed Forces

On 23 March 2020, the Swedish Accident Investigation Authority (SHK) published a final report (RM 2020:01) into an accident in Överkalix involving one of the Swedish Armed Forces' Combat Vehicle 90A. In the report, SHK directed four safety recommendations at the Armed Forces.

The Armed Forces has submitted a response and described the action the authority plans to take as a consequence of the recommendations. The action the Armed Forces intends to take may be deemed to correspond well to the recommendations issued in the report. Consequently, SHK makes the assessment that the response obtained from the Armed Forces is satisfactory. (Concluded – satisfactory response).
