The Swedish Accident Investigation Authority's report RL 2017:07

On 13 June 2017, the Swedish Accident Investigation Authority (SHK) published its final report RL 2017:07 that treated the accident at Åre Östersund Airport on 13 June 2016 involving the helicopter SE-JVP of the type AS 350, operated by a private person.

Two recommendations were issued to the Swedish Transport Agency in this report. The Transport Agency has submitted responses to these recommendations.

The actions that the Transport Agency has planned to take correspond well to the recommendations issued in the report and appear to be adequate. SHK therefore makes the assessment that the recommendations may be considered implemented and that the response obtained from the Transport Agency is satisfactory.

Best regards,

Helene Arango Magnusson
Chair Accident Investigations
