Assessment of recommendation response from Landskrona Municipality

On 11 May 2022, the Swedish Accident Investigation Authority (SHK) published the report RS 2022:05, which deals with a fire that broke out in conjunction with the loading of waste onto a vessel in the Port of Landskrona.

A total of nine recommendations were issued in the report, one of which to Landskrona Municipality.

Recommendation RS 2022:5 R6

During inspection of waste disposal operations ensure that the type and quantity of the waste handled is inspected.

Landskrona Municipality has responded to the recommendation and stated that during the inspection of facilities involved in the commercial collection and transport of waste, the type and quantity of the waste is being inspected.

SHK deems the safety recommendation to have been implemented (Concluded – satisfactory response).

Best regards,

Kristina Börjevik Kovaniemi
Chair Accident Investigations
