Assessment of recommendation response from the Swedish Transport Administration

On 10 June 2022, the Swedish Accident Investigation Authority (SHK) published a final report (RJ 2022:03) into a railway incident on the line from Garsås to Rättvik in Dalarna County. In the report, SHK directed a safety recommendation at the Swedish Transport Administration (*RJ 2022:03 R2*).

The Swedish Transport Administration has responded to the safety recommendation and described the action that has been taken and that will be taken in future. SHK deems the safety recommendation to have been implemented (Concluded – satisfactory response).

Best regards,

John Ahlberk
Director General, Chair of investigation
